

MODEL C-4

Bookshelf speakers are fast becoming an integral part of many systems. Because of their compact size they can more easily be adapted to the average listening room.

CROWN C-4's are the best bookshelf available. Weighing just under 40 pounds, these speakers will provide excellent sound reproduction. These speakers aren't just another speaker. You see, CROWN's complete line concept lead to the development of the C-4's.

Our design theory of not overtaxing individual components (woofers, midrange or tweeters)— is why the all over sound of the C-4's is better.

Few bookshelf speakers offer as many high quality individual transducers as the C-4's: 1-10" woofer, 1-5" midrange, 1-2½" tweeter and 1-2¼" tweeter. Less burden on individual components permits effortless reproduction of music.

Speaker Complement	1-10", 1-5" 1- 2 1/2", 1- 2 1/4"
Usable Frequency Response in Recommended Max. Room Crossover Frequencies	32 Hz - 18 kHz 1500 Hz 7000 Hz
Recommended Max. Room Size Recommended Max. Amp Power	2500 Cu. Ft. 40 watt
Dimensions	14 1/2 x 25 x 12 Deep
Shipping Weight	40 lbs.

Special Features:

1. Dacron damping material in woofer and midrange enclosure.
2. Woofer exhibits absolutely no peakiness over entire range.
3. 2 1/2 and 2 1/4 tweeters operate in parallel to smooth out individual cone problems above 10 kHz.
4. Adequate high frequency capability to overcome some room absorptive problems without problems without need of an equalizer.

****WARRANTY**:** As with any other CROWN speaker, we offer this warranty; should your speaker malfunction anytime within 3 years from the date of purchase, CROWN will repair it absolutely free. Further more we will pay the round-trip-shipping to and from the factory.
